

Julie Goldstein
Principal, Breakthrough Magnet School

Todd Mann
Executive Director
Magnet Schools of America
1909 K Street, NW Suite C-140
Washington, DC 20006

March 15, 2019

Dear Mr. Mann,

It is with great enthusiasm that I submit my application for Magnet School of America's Regional Director of Region I. Region I which comprises New England and the Tri State Area are both areas where I have significant connections and ties to each state professionally and personally. It is a region that I have called home virtually my entire life, with the exception of three years in Los Angeles. As a result of my deep roots here, I feel deeply invested in the success all students, educators and families; especially those who are fortunate enough attend magnet schools.

As Principal of Breakthrough Magnet School South in Hartford, Connecticut, I truly appreciate the quality theme-based education that is made possible for members of Magnet Schools of America- the technical assistance, advocacy, and community that is created through webinars and workshops at the national conference, as well as the merit awards and certification-- all serve to uphold a standard of quality of magnet school education, across the country. Having served as a magnet school administrator for eight years, each of which included recognition as a school of merit or distinction including the Dr. Ronald P. Simpson School of Excellence Award in 2015, I have had the privilege of presenting at the Technical Conference as well as at several National Conferences and currently enjoy serving on the Member Value Working Committee. It would be an honor to represent Region I. As a liaison and advocate I hope to increase membership, build our community and share best practices as well as advocate for our region's needs.

Attached please find my prepared statement as well as my resume and photo. I am looking forward to attending the national conference where I look forward to addressing my fellow Region I members for their consideration.

Sincerely,

Julie Goldstein
